Work at UIS [1]

Be a part of an inclusive, innovative team at UIS.

University Information Services (UIS) provides technical services and enterprise applications to the University of Colorado campuses and CU System Administration. As a department, we positively impact the trajectory of individual lives and society. We empower the CU community through university wide IT services. Learn about our value and culture, then see our open positions [2].

We are UIS.

Our Values

People-Centric
People come first. We value their contribution and want to empower them to make a difference.

Integrity
We do the right thing, regardless of who is watching.

Service
We are committed to knowing and understanding our customers and delivering value.

Collaboration
We are actively engaged with others toward a common endeavor.

Our Culture

Inclusive

We recognize how our combined knowledge and differences make our organization stronger. That's why we align with CU System's Diversity, Equity & Inclusion Office [3] in fostering a diverse, equitable and inclusive community.

Adaptive

We welcome new challenges and adjust our thinking to create positive outcomes. Review our past and current projects in the 2023 Impact Report [4] for a spotlight in our ever-changing IT services.

Innovative

We encourage each other to take calculated risks to overcome complex challenges. Many of our employees have been honored with campus recognitions [5] for their efforts for a better future.

Human

We enable employees to discover our strengths and weaknesses, so we can be grateful, empathetic, humble and hopeful. UIS has a dedicated HR team focused on Talent Management and Development to foster employee growth along progression paths.

Reliable

Our employees establish the foundation for a respectful, transparent and consistent work environment. UIS is using results from the 2021 Campus and Culture Workplace Survey [6] and has created an action plan to support all members of our department and make UIS a top place to work.
